Customer Window, Mail Stop Amendment  
Randolph Building  
401 Dulany Street  
Alexandria, VA 22314

Sir:

In accordance with Applicants' duty to submit a statement regarding the substance of an interview, Applicants submit that a telephone interview occurred on March 27, 2008. Initially, Applicants wish to thank Examiner Ahn for the courtesy extended in the interview.

During the interview, Applicants' representative pointed out the differences between the features recited in amended independent claim 1 and the applied references of MIYASAKA and POLIZZI. Specifically, Applicants' representative explained that neither MIYASAKA nor POLIZZI discloses or suggests sending query data, in response

to a portion of a first news content being accessed by at least one of multiple users, from a document server across at least a portion of a network to a news server that is operable to crawl and aggregate news content from a plurality of news sources, as recited in amended claim 1. The Examiner stated he understands the invention better and would focus on the above feature in the next Office Action. No further agreement was reached.

To the extent necessary, a petition for an extension of time under 37 CFR § 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account No. 50-1070 and please credit any excess fees to such deposit account.

Respectfully submitted,
